

Recommended online advertising sites to increase diversity in applicant pool

Physics/Astronomy

<http://www.aises.org/career/>

American Indian Science and Engineering Society (AISES) Career Service page. Information is available on web page for posting opportunities. A 3-month posting is \$300-\$500.

<http://www.awis.org/careers/jobsearch.html>

Association for Women in Science. Online postings are available for \$300 per month. All positions advertised in AWIS Magazine can also be placed on AWIS Online at discounted rate. Use of your logo in an AWIS online ad is an additional \$50.

<http://marcus.whitman.edu/~burciaj/NSHP/index.html>

National Society of Hispanic Physicists. Jorge Lopez at UTEP (jorgelopez@utep.edu), is the Communication Officer and handles the Job Board for the NSHP. So he would be the best contact for position announcements. It appears that this is a FREE service!

<http://www.nsbp.org/en/jobs/search.asp>

National Society of Black Physicists. There is a link to post jobs on their web site. It costs \$375 for a premium posting (near top of page) for 30 days.

<http://sacnas.org/jobIndex.cfm>

Society for the Advancement of Chicanos and Native Americans in Science (SACNAS). Simple links (25 words) are posted for 90 days for \$150. We recommend a single-page format for ads longer than 25 words and up to 500 words. Single-page format costs \$300 for 30 days posting length. In addition to being listed on the Internships, Undergrad Research Experiences, and Summer Programs page, each posting is included in one issue of e-nouncements.

Engineering

www.nsbe.org

National Society of Black Engineers. Info available on the web site for online job postings. Cost is \$250 for 60-day online posting for one job; a 5-pack is available for \$750.

www.swe.org

Society of Women Engineers. Info available on the web site for online job postings with similar costs to NSBE.

www.henaac.org

A national organization formed to recognize and encourage hispanic engineer achievements in science, technology, engineering and math. Holds conferences, but does not appear to have a "jobs" posting function.

Regional job boards

www.edd.ca.gov

All Caltech jobs are automatically posted with the CA Employment Development Department.

<http://www.laworks.net/>

LAworks is the relevant site for posting for positions resident in Louisiana.

www.tourworksource.com/tricitiesworks/

Worksource is a Washington State supported employment service. This link goes to the TriCities regional office, which would be most effective for LIGO Hanford.

Other

www.imdiversity.com

www.careerbuilder.com

When jobs are posted to the Careerbuilder website the job automatically gets posted with their partner organizations. Many of the partner organizations focus on diversity.
