Larry,

Attached is the requested beam tube profile information. The profile measurements were at two selected locations along the 22-B assembly. Sixty (60) readings were taken at each location a spacings of 1". At one of the selected locations a spiral weld seam was centered midway between the two adjacent beam tube stiffeners. At the other selected location two of the spiral weld seams were located between the adjacent stiffeners.

Please call if you have any questions or comments concerning this transmittal.

Steve Peters
