OPTIC DIMENSIONS

You searched for an optic of **1.000 in.** diameter, **0.250 in.** center thickness, **plano** top surface with **0.000 in.** chamfer width, and **plano** bottom surface with **0.000 in.** chamfer width.

OPTICS PACKAGING CONTAINER

PART NUMBER: EW1.00-01500350

MATERIAL: Low-Outgassing, Clear PET-G

CONTAINER DESCRIPTION

Providing tweezer/finger clearance in the base, and a wider range of variable edge thickness and variable diameter within a single container, this hold type is also the best solution for very small diameter optics and very thin optics.

- **Finger/Tweezer Clearance** in base
- **Stackable** for shipping and storage
- **Outside diameter:** 2.40 in.
- **Overall height:** 1.00 in. (with optic inside)
