

Matte Black Wrap

A-3-S

Product Application and Description:

A-3-S is a high performance thermally cured epoxy coating that provides extreme resistance to high temperature exposure such as close proximity to stage lighting systems. A-3-S is a flat black coating with a gloss level of less than 6 at 60°F that provides an anti-reflective, glare free back drop for stage and theater lighting applications. This product can be coated on one or both sides.

Shelf Life and Storage:

It is recommended to consume all materials within 1 year from date of purchase. Best if stored in a controlled environment (72°F and 50%RH) and out of direct sunlight.

Physical Characteristics		
Test	Typical Performance	Method
Gloss	<6	Measured at 60°F
MEK Resistance	10 double rubs	Crockmeter
Heat Resistance	1 hour exposure (maintain integrity)	Altman Stage Lamp (1000W PAR 64)
Coat Weight	2.7—3.3lbs./Ream	Gravimetric
